## WHAT YOU DO

**1** To make the front quilt piece, sew together the two light green and three dark green piece with the 7 x 9 inch (17.8 x 22.9 cm) white piece as shown in the photo. You'll need to cut a curve along the top of the shorter light green piece to make the hilltop.

**2** Draw lines for the embroidery pattern with a fabric marker onto the quilt front and embroider the design with the floss.

**3** Sandwich the quilt front, batting, and remaining 9½ x 12-inch (22.9 x 30.5 cm) white piece together and pin with safety pins, starting in the center. Quilt the layers together using the tying method, with bits of embroidery floss to match the fabric colors on the front. Make the knots at the back.

**4** Sew the bias tape around the edge, folding in the corners.
