

Yum! Tuck a name card between the whipped cream and the crust and you can use these pie slices as place card holders.

(Pumpkin) Pie in the Sky

DESIGNER: AIMEE RAY

WHAT YOU NEED

Templates (page 3)

Basic sewing kit (page 3)

Pumpkin orange, tan, and cream felt,
9 x 12 inches (22.9 x 30.5 cm) each

Brown embroidery floss

White, orange, and tan thread

Stuffing

WHAT YOU DO

1 Using the templates, cut two side pieces and one top piece from the pumpkin orange felt. Cut one bottom piece and one crust piece from the tan felt. Cut one whipped cream piece from the cream felt.

2 To embroider the swirl designs on each side piece, first trace the embroidery pattern onto the tissue paper, and then pin it securely in place onto the felt piece. Embroider the designs through both the tissue paper and the felt, using the brown floss and the lazy daisy and split stitch. Tear away the tissue paper. You may need to use a needle or tweezers to pull out little pieces from underneath your stitches.

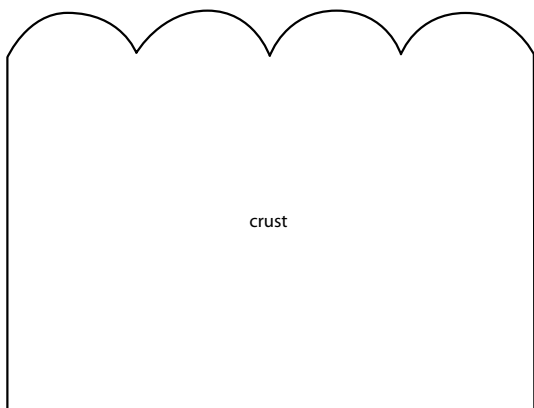

3 To make the whipped cream, use the white thread to make a stitch in each top corner

and then gather the thread together (see below). Pull the thread down through the center of the circle and tie a knot underneath. Stitch this piece onto the top pie piece.

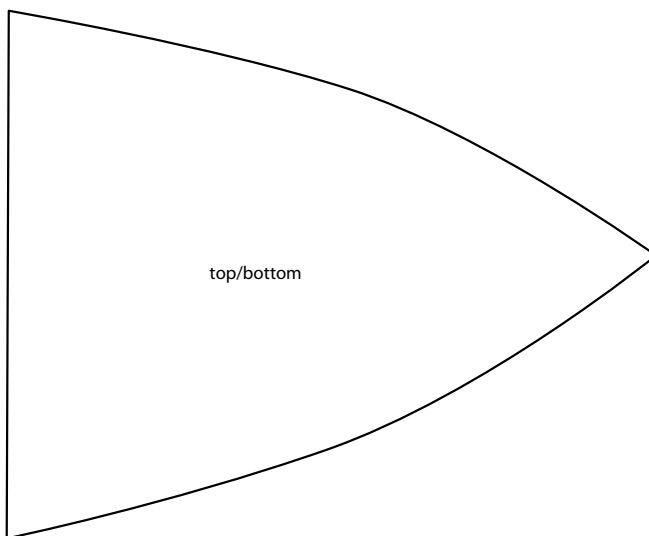

4 Stitch the top, sides, and bottom pie pieces together using the whipstitch and the orange thread. Stuff the pie firmly, but not enough so the sides bulge. Stitch on the back crust piece using the whipstitch and the tan thread.
